

Product Detail

10 Ton X 2 Kg Crane Scale

Description

Description

Established in the year **2005**, we, **Sunrise technology** are one of the **ISO 9001:2015** certified organizations engaged in **manufacturer, trader, distributor** and **service provider** a wide range of Crane Scale , **Digital Balance, Industrial Scale, Weighing System, Load Cell, currency counting machine , CCTV camera , Weighing Systems AMC Service etc.**

Banking on our sophisticated infrastructural setup, we have been able to cater to the needs of the clients successfully. Our engineers use innovative technology for manufacturing the range. With the intent to suit application specific needs of the clients, we offer customized solutions. Our well-spread distribution channel helps to deliver the range within specified time frame. Due to our sincere and diligent efforts, we have acquired a rich client base across the nation.

Our organization is headed by our MD **Mr. Jignesh Shah** who has industry experience of many years and possess rich expertise of this domain. With his able supervision and constant guidance, we have emerged as a reliable business organization.

Description Sunrise offers different types of crane scales which are ideal for industrial, commercial or agricultural trading, and also for sports and leisure. Our line of Crane scales cover almost all weighing ranges. You can weigh anything that can be suspended, starting from small goods right up to big containers or material. All the models have ISO laboratory calibration certificate, are designed with the international quality standards and hence are durable and have a long shelf life. Sunrise ensures 100% customer satisfaction with all purchases made from us. In case of any problem with our products, do not hesitate to contact us.

Certificate: ISO9001: 2015 certified

Technical requirement for crane weighing scales	
Capacity	10 T (L&T, Required Accuracy: 2 Kgs)
Make with comp. detail	OCS
Model No.	OCS-10Ton
Scale Type	Crane
Accuracy	2Kg
Load cell make	imported
Load cell Capacity	10tON
Load cell shape	special crane type
Load cell type model	glbs 10TON
Safe overload	12.5% F.S.
Ultimate overload	
Ultimate overload protection	Overload Alarm
Allowable side load	no
Deflection	
Scale body Construction	Aluminium Casting
Body painting scheme	Powder coating
Housing structure	
Hook construction	iron
Hook standard	
Display designator	
Display type	LED
Display character limit	5 digit
Resolution	
Data recorder memory	No
Connectivity with computer	no
Measurement units	Only In Kgs
Warm up time	10 Sec
Working Temperature	
Working Humidity	
Battery life	>80h
Battery type	Dry Cell
Battery charger details	adeptor type
Remote controller make	imported
Remote controller system type	wireless type
Remote Controller Distance	15 m
Battery of remote controller	Alkaline Battery
Protection Class	
Calibration method	auto remote calibration
Power supply	transformer base,input 200V AC 50Hz
Power consumption	
Overall Dimensions (L x W x H), mm	600mmx210mmx205mm
Overall weight, Kgs	30kg
Make of all bought out items	metal & steel & aluminium casting
Additional features	
Safety features	over load alarm,auto power saving mode
